

Empower Your Organization with the Automation Bundle

You go to work on a mission to help the most vulnerable populations in the world. Yet much of your time is spent juggling many operations tasks, navigating manual processes and managing various funding requirements.

Help your organization do more with less by automating service delivery with our time saving features - **ETO® Workflow**, **ETO® Alerts**, and **eSignature**! While you are at it, save big on the overall cost of the features by bundling!

eSignature

Automate signatures in the system throughout the workflow

Alerts

Ensure tasks are completed on time and that colleagues stay informed.

Workflow

Guide users through pre-defined program steps.

Keep Everyone in Sync

ETO® Workflow ensures your users never miss a step in service delivery by providing an easy-to-use workflow tool right on the dashboard. ETO Alerts keeps all staff aligned and informed throughout the Workflow process!

Be More Productive

Your users will be guided through your pre-defined processes with conditional next steps complete with links to actionable tasks saving time and increasing productivity. ETO® Alerts makes communicating updates and other critical information to all stakeholders a snap with triggered notifications.

Mitigate Training & Improve Data Quality

Because steps are clearly defined within each Workflow, ETO® will guide users through your defined processes, which reduces errors and training. ETO® Alerts ensures users are staying on-task and on-deadline.

Foster Transparency & Communication

Workflow provides a clear picture of the work being done, every step of the way. Managers have the confidence that comes with visibility into the process, and stakeholders stay in the loop with automated alerts.

GET STARTED TODAY

Learn more about how you can improve service delivery by automating workflows, notifications and approvals with the **Automation Bundle** today.
